采用日本原装进口超大幅面3D激光器，高功率、高速度刻印
Imported from Japan large size 3D laser, high power, high speed of engraving
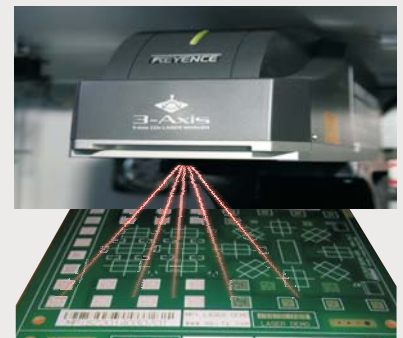

最大刻印范围300*300mm
Large Size laser engraving area is 300 * 300mm,

读取条码的数据，连接MES/IMS and SFIS
Bar code data collection, connecting MES/IMS and SFIS

特点 Features

日本原装进口KEYENCE 30W 3D激光器，大幅面刻印，高速刻印，稳定性强，使用寿命长，环保无耗材。
Imported from Japan KEYENCE 30W, 3D laser large-format signet, high speed of engraving, strong stability, long service life, environmental protection, no consumables.

含CCD视觉影像处理系统，Fiducial Mark和Bad Mark识别系统，
With CCD visual image processing system , has a Fiducial mark recognition and BAD Mark recognition system,

智能化软件设计，刻印数据与生产管理系统数据实时互联，杜绝重码，错码出现，实现工业4.0智能生产
Intelligent software design, Marker data real-time date and production management system interconnection,put an end to wrong word. if weight code,to achieve industrial 4.0 intelligent production
